POSITIONS HELD

Ursinus College

Joseph Beardwood III Chair of Mathematics	Fall 2017-present
Associate Professor	2016-present
Chair of Mathematics and Computer Science	2016-present
Assistant Professor	2010-2016

Faulkner University

Adjunct Professor	2015

EDUCATION

Dartmouth College

Ph.D., Mathematics	June 2010
Masters of Arts, Mathematics	June 2007

Western Michigan University

Masters of Science, Mathematics	June 2005
Bachelors of Science, Mathematics	August 2003

Grand Rapids Community College

Associates, Architectural Drafting	May 2001

TEACHING EXPERIENCE

Ursinus College,

Math 335: Abstract Algebra
Math 491: Algebraic Topology
Math 451: Discrete Morse Theory
Math 361: Graph Theory
CIE 100: Common Intellectual Experience
Math 421: Topology
Math 211: Multivariable calculus
Math 235: Linear Algebra
Math 10: Problem Solving
Math 322: Geometry
Math 341: Probability
Math 236W: Discrete Mathematics
Stat 141Q: Statistics I
Math 111: Calculus I
Math 112: Calculus II

Adjunct Professor, Faulkner University

Math 1312: Mathematics Spring 2015

Other teaching experience,

Teaching Assistant: Dartmouth College	Summer 2009
Instructor: Dartmouth College	2007-2009
Teaching Assistant: Dartmouth College	2005-2007
Instructor: Western Michigan University	2003-2005
Undergraduate Teaching Assistant: Western Michigan University	2002-2003

INDEPENDENT STUDIES

Ursinus College,

Discrete Morse theory and knots, Connor Donovan	Spring 2021
Discrete Morse theory, Elvi Sopiqoti	Spring 2020
Discrete plates and Olives, Matthew Furgele	Spring 2020
Analyzing heart data, Ben Minardi	Spring 2019
Algebraic topology, Nick Tulio	Spring 2019
Strong collapsibility and the Morse complex, Max Lin	Spring 2019
Group of strong self-homotopy equivalences, Vince Sergi, Ryan Quick	Spring 2019
Boolean functions, Ryan Quick	Fall 2018
Algebraic topology, Jason Bennett	Fall 2018
Generating Discrete Morse Functions from Point Data, Ashlyn Welch	Spring 2018
Random discrete Morse theory, Nikolai Peralta	Spring 2018
Homotopy theory, Karthik Yegnesh	Fall 2016 Spring 2017, Fall 2017, Spring 2018
Topology, Ian Rand	Spring 2017
Discrete Morse theory and Persistent homology, Yuqing Liu	Spring 2017
Random discrete Morse theory, Nikolai Peralta, Chase Babrich	Fall 2016, Spring 2017
Algebraic topology, Matan Peleg	Fall 2016, Spring 2017
Category theory, Michael Vennettilli	Spring 2015
Multiplication in discrete Morse theory, Rose Blanchard	Spring 2015
Number theoretic notions in discrete Morse theory, Ian Rand	Spring 2015

Discrete Morse theory, Tyler Helms	Fall 2014
Estimating the discrete LS category, Brian Green	Fall 2013
Homology and Cohomology, Seth Aaronson, Brian Green, Michelle Tanco	Spring 2013
Discrete LS category, Seth Aaronson	Spring 2013
Counting discrete Morse functions, Seth Aaronson	Spring 2012
Lie Groups, Brian Green	Spring 2012
Discrete Morse Theory, Mike Agiorgousis	Spring 2012
Markov Chains, Jayant Velagala	Spring 2012
Probability, Jayant Velagala	Fall 2011
Knot Theory, Will Molden	Fall 2011
Discrete Morse Theory, Seth Aaronson	Spring 2011

STUDENT POSTERS AND PRESENTATIONS

Benjamin Johnson *"Merge trees in discrete Morse theory,*
Mathfest, Cincinnati, Ohio August 2019

Yuqing Liu *"Persistence equivalence of discrete Morse functions on trees,*
Mathfest, Denver, Colorado August 2018

Karthik Yegnesh *"Families of Objects in Categories and Elementary Topoi,*
AMS/MAA Joint Math Meetings, Atlanta, Georgia January 2017

Karthik Yegnesh *Cosheaf theoretical constructions in networks and persistent homology,*
68^{th} annual Delaware Valley Science Fair, Oaks, Pennsylvania (won "first place" in Mathematics) March 2016

Karthik Yegnesh *Cosheaf theoretical constructions in networks and persistent homology,*
59^{th} annual Montgomery County Science Research Competition, Collegeville, Pennsylvania
(won "first place" in math category) March 2016

Matt Belle *Arboricity,*
AMS/MAA Joint Math Meetings, Baltimore, Maryland January 2014

Brian Green *Estimating the discrete Lusternik–Schnirelmann category,*
AMS/MAA Joint Math Meetings, Baltimore, Maryland January 2014

Seth Aaronson *Lusternik–Schnirelmann category for cell complexes,*
AMS/MAA Joint Math Meetings, San Diego, California January 2013

Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology,*
AMS/MAA Joint Math Meetings, San Diego, California (won "Outstanding Presentation" award) January 2013

Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology,*
Undergraduate Science Research Symposium, Haverford College September 2012

Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology,*
Mathfest, Madison, Wisconsin August 2012

Mike Agiorgousis, Brian Green, Alex Onderdonk,and Kim Rich *Discrete Morse Functions and Homology,*
Disappearing Boundaries Summer Research Meeting, Lebanon Valley College July 2012

Seth Aaronson and Marie Meyer, *"Graph Isomorphisms in Discrete Morse Theory", AMS/MAA Joint Meetings, Boston, MA* January 2012

BOOKS

Discrete Morse theory, AMS/MAA Press, 2019

BOOK CHAPTERS

Nicholas A. Scoville, "Sometimes when your hopes have all been shattered," *Living Proof: Stories of resilience along the mathematical journey*, Edited by Henrich et al., AMS/MAA Press, 2019

BOOK REVIEWS

Nicholas A. Scoville, "Never a dull moment: Hassler Whitney, Mathematics Pioneer" by Keith Kendig, *The American Mathematical Monthly* Volume 126, 2019 - Issue 9

PRESENTATIONS

Higher connectivity of the Morse complex January, 2021
Virtual AMS/MAA Joint Meetings (invited talk)

Discrete Morse theory as an introduction to topology March, 2020
Juniata College math colloquium (invited talk)

Towards a new digital homotopy theory February, 2020
University of Albany Geometry/Topology seminar (invited talk)

Digital topology: A smooth introduction November, 2019
Westminster College, Fulton Missouri (invited talk)

Towards a new digital homotopy theory November, 2019
University of Missouri Geometry/Topology seminar (invited talk)

Strong discrete Morse theory and an application to simplicial Lusternik–Schnirelmann category November, 2019
Topological Complexity and Related topics, AMS Southeastern Sectional Meeting, University of Florida (invited talk)

On the automorphism group of the Morse complex November, 2019
General Contributed Paper Session, AMS Southeastern Sectional Meeting, University of Florida

A new digital homotopy theory June, 2019
Lehigh Geometry/Topology Conference

Towards a new digital homotopy theory May, 2019
Lehigh University Algebraic Topology seminar (invited talk)

Build your own topology January, 2019

General Contributed Paper Session on Research in Topology, Joint Math Meetings, Baltimore

Digital Topology: A smooth introduction October, 2018
Western Michigan University (invited talk)

Strong discrete Morse theory July, 2018
ICART 2018, Rabat Morocco

Digital Topology: A smooth introduction March, 2018
Colloquium, Elon University (invited talk)

S^1 and S^2 and S^3, oh fy! A digital Hopf fibration January, 2018
Math Colloquium, Montana State University (invited talk)

S^1 and S^2 and S^3, oh fy! A digital Hopf fibration November, 2017
Colloquium, Catholic University of America (invited talk)

Digital Topology: A smooth introduction November, 2017
Colloquium, Bard College (invited talk)

S^1 and S^2 and S^3, oh fy! A digital Hopf fibration November, 2017
Colloquium, Dartmouth College (invited talk)

Digital Topology: A smooth introduction October, 2017
Colloquium, Seattle University (invited talk)

Digital Topology: A smooth introduction October, 2017
Colloquium, Central Washington University (invited talk)

Simplicial Lusternik–Schnirelmann category and strong discrete Morse theory October. 2017
Topology Seminar, University of Florida (invited talk)

S^1 and S^2 and S^3, oh fy! A digital Hopf fibration October, 2017
Colloquium, University of Florida Colloquium (invited talk)

Digital Topology: A smooth introduction September, 2017
Math Club, Cleveland State University (invited talk)

A Persistent Homological Analysis of Network Data Flow Malfunctions August, 2017
Applied Algebraic Topology in Sapporo, Sapporo Japan

A Persistent Homological Analysis of Network Data Flow Malfunctions June, 2017
Applied Topology in Bedlewo, Bedlwo Poland

A Simplicial Lusternik–Schnirelmann Theorem (poster) June, 2017
Topological Data Analysis: Theory and Applications, Macalester College

Towards a new digital homotopy theory April 2017
Colloquium, Cleveland State University (invited talk)

Collaborative Research: Transforming Instruction in Undergraduate Mathematics via Primary Historical (TRIUMPHS) January, 2017
MAA Invited Paper Session on Research in Improving Undergraduate Mathematical Sciences Education Program, AMS/MAA Joint Meetings, Atlanta (invited talk)

(Strong) discrete Morse theory as an introduction to topology September, 2016
Colloquium, Butler University (invited talk)

Georg Cantor at the dawn of point-set topology September, 2016
Butler University (invited talk)

A Simplicial Lusternik–Schnirelmann Theorem (poster) July, 2016
ATMCS 7, Torino Italy

The Cantor Set before Cantor January, 2016
AMS/MAA Joint Meetings, Seattle Washington

Discrete Morse theory as an introduction to Topology December 2015
Colloquium, University of Sevilla (invited talk)

Graph isomorphisms in discrete Morse theory October, 2015
Colloquium, Lehigh University (invited talk)

Estimating the discrete Lusternik–Schnirelmann category February, 2015
Homology: Theoretical and Computational Aspects, Genoa, Italy

Discrete Morse theory at the service of Number Theory January, 2015
MAA General Contributed Paper Session on Research in Topology, AMS/MAA Joint Meetings, San Antonio

Graph isomorphisms in discrete Morse theory October, 2014
Colloquium, Seattle University (invited talk)

Lusternik–Schnirelamnn category, categorical sequences, and rational numbers September, 2014
Topology seminar, University of Michigan (invited talk)

Topology and its history- must there be a separation? May, 2014
Pohle Colloquium, Adelphi University (invited talk)

Lusternik–Schnirelamnn category, categorical sequences, and rational numbers February, 2014
Geometry/Topology seminar, University of Pennsylvania (invited talk)

Topology and its history- must there be a separation? January, 2014
PASHoM Seminar, Villanova University (invited talk)

Graph isomorphisms via discrete Morse theory January, 2014
AMS Special Session on Trends in Graph Theory, AMS/MAA Joint Meetings, Baltimore

Topology and its history are connected under the classroom topology October, 2013
Special Session on History of Mathematics and Its Use in Teaching,
AMS Southeastern Sectional meeting, University of Louisville (invited talk)

Computing the Discrete Lusternik–Schnirelmann category of a simplicial complex July, 2013
Applied Topology in Bedlewo, Bedlewo, Poland

Discrete Lusternik–Schnirelmann category October, 2012
General Contributed Paper Session, AMS Southeastern Sectional Meeting, Tulane University

Discrete Morse theory and the homology of simplicial complexes August, 2012
General Contributed Paper Session, Mathfest, Madison

Fun with Pi March, 2012
Pi Day Celebration, Ursinus College

Lusternik–Schnirelmann Category and the Connectivity of X January, 2012
Research in Algebra and Topology, AMS/MAA Joint Meetings, Boston

Graph Isomorphisms in Discrete Morse Theory November, 2011
Colloquium, Saint Joseph's University (invited talk)

Graph Isomorphisms in Discrete Morse Theory October, 2011
Colloquium, Swarthmore College(invited talk)

Graph Isomorphisms in Discrete Morse Theory September, 2011
Colloquium, Gettysburg College (invited talk)

Discrete Morse Functions on Graphs August, 2011
Pure Mathematics Session, Mathfest, Lexington

The Advent of Point-Set Topology January, 2011
General Topology Session, AMS/MAA Joint Meetings, New Orleans

Pick's Theorem: How to compute the area of a polygon October, 2010
ϵ-talk Seminar, Ursinus College

Rethinking the way we teach Point-Set Topology August 2010
The History of Mathematics and Its Uses in the Classroom, Mathfest, Pittsburgh

Irrational Numbers February 2010
Colloquium, St. Mary's University (invited talk)

2 Equations Attributed to Euler February 2010
Colloquium, Mount Saint Mary's College (invited talk)

What makes Topological Spaces different? January 2010
Colloquium, Ursinus College (invited talk)

A Metric for Homotopy Types January 2010
Geometry/Topology Session III, AMS/MAA Joint Meetings, San Francisco

Generalized Cone and Killing Lengths November 2008
Graduate Student Seminar, Dartmouth College

Hopf Invariants and the Reduced Diagonal April 2004
Topology Seminar, Western Michigan University

Something About the Quartic February 2004
History of Math Seminar, Western Michigan University

Diophantine Equations February 2004
Student Seminar, Western Michigan University

Beginning Invariant Theory and the Fundamental Theorem of Symmetric Polynomials January 2004
Algebra Seminar, Western Michigan University

Two Special Cases of Ganea's Conjecture December 2003
Topology Seminar, Western Michigan University

Applications of Groebner Bases and Elimination Theory November 2003
Algebra Seminar, Western Michigan University

Category-Type Invariants of Maps November 2003
Topology Seminar, Western Michigan University

Hardy, Littlewood, and Ramanujan-the REAL Triple Threat! September 2003
History of Math Seminar, Western Michigan University

WORKSHOPS RUN

MAA Workshop: Teaching Undergraduate Mathematics via Primary Source Projects. January, 2020
AMS/MAA Joint Math Meetings, Denver Colorado

TRIUMPHS Graduate student training Workshop July 19-20, 2019
New Mexico State University

TRIUMPHS Training Workshop September 13-15, 2018
University of Colorado Denver

Teaching Undergraduate Mathematics via Primary Source Projects January 2018
AMS/MAA Joint Math Meetings, San Diego CA

Teaching Mathematics with Primary Historical Sources April 1, 2017
MAA EPADEL sectional meeting, Kutztown PA

TRIUMPHS Training Workshop September 8-10, 2016
University of Colorado Denver

Connecting Past to Present: An approach to teaching topology via original resources July, 2016
HPM 2016, Montpelier France

PROFESSIONAL AFFILIATIONS

Council on Undergraduate Research 2013-2017

History of Mathematics Special Interest Group
of the Mathematical Association of America (HOMSIGMAA) 2012-Present

Association of Christians in the Mathematical Sciences 2011-Present

Mathematical Association of America 2009-Present

American Mathematical Society 2005-Present

Pi Mu Epsilon Mathematics Honors Society Fall 2002-Spring 2005

HONORS AND AWARDS

Paul R. Halmos-Lester R. Ford Award
for article of expository excellence published in The American Mathematical Monthly August 2020

REU SITE: Exploration and Professional
Excellence in the Mathematical Sciences
NSF Grant 1851948 (April 2020- March 2023) $225,469

Western Michigan University
Department of Mathematics Alumni Achievement Award — October 2018

Collaborative Research: RUI: Transforming Instruction in Undergraduate Mathematics via Primary History Sources
NSF IUSE Grant 1524065 (Aug. 2015- Sept. 2020) PIs at Colorado State, Central Washington, NMSU, Xavier, U Colorado, Denver, U Florida — $71,002

Best oral presentation at HTCA conference in Genoa, Italy
sponsored by Gruppo Italiano Ricercatori in Pattern Recognition. — February 2015

Mellon travel grant — July 2013

Mellon travel grant — May 2012

Project NExT Fellow — Aug. 2010 – Aug. 2011

ADDITIONAL SKILLS

Mathematical Software: LATEX, MATLAB, Maple, BlackBoard, WeBWork, HTML, Minitab, Derive, Java.

MATHEMATICAL ACTIVITIES

Served on virtual panel "Teaching and the Liberal Arts"
University of Tennessee, Knoxville — April 2020

Referee for several journals (available upon request) — 2013-present

Member of NSFs College of Reviewers for Undergraduate Education — 2018-2021

Scientific Committee, ESU8, Oslo Norway — July 2018

Scientific Committee, ICART 2018, Rabat Morocco — July 2018

Organized Special Session "AMS Special Session on Open & Accessible Problems for Undergraduate Research, "
with Allison Henrich and Michael Dorff at AMS/MAA Joint Math Meetings — January 2018

Focus Magazine, editorial board — November 2017-present

Served on NSF panel review — 2016, 2017, 2018

Served on MAA Basic Library List Committee	January 2017-January 2020
Organized Special Session "AMS Special Session on Open & Accessible Problems for Undergraduate Research, " with Allison Henrich and Michael Dorff at AMS/MAA Joint Math Meetings	January 2017
Served on panel "The Research and Teaching Pendulum: January 2017 Finding a Stable Equilibrium" at AMS/MAA Joint Math Meetings	January 2017
Organized Special Session "Applied and Computational Topology, " with Matthew Wright and Paweł Dłotko at AMS/MAA Joint Math Meetings	January 2016
Organized panel "Finding a thesis topic and advisor, " at AMS/MAA Joint Math Meetings	January 2016
Reviewed applications for Posters on the Hill	Fall 2015
Reviewer for MathSciNet Mathematical Reviews	February 2015-present
Organized panel "Graduate school: Choosing one, getting in, staying in, " at AMS/MAA Joint Math Meetings	January 2015
Reviewed applications for Posters on the Hill	Fall 2014
Book reviewer for online MAA book reviews	2014-Present
Faculty representative for Ursinus MAA student chapter	2014-Present
CUR Councilor in the Mathematics and Computer Sciences Division	2014-Present
Served on panel "You published your dissertation: now what?" at AMS/MAA Joint Math Meetings	January 2013
Organized panel "The on-campus interview survival guide" at AMS/MAA Joint Math Meetings	January 2013
Reviewer for mathematical publication database Zentralblatt	August 2012-present
Senior Personal, Ursinus College REU (NSF Grant No. DMS-1003972)	June 2012-August 2012

Organized Panel "Hit the Ground Running! Interview like a Pro and land the job" at AMS/MAA Joint Math Meetings	January 2012
Senior Personal, Ursinus College REU (NSF Grant No. DMS-1003972)	June 2011-August 2011
Judge for MAA Student Paper Session 3, MathFest	August 2011
Judge of research abstracts for Young Mathematicians Network Conference applicants	July 2011
Judge for MAA Student Poster Session, Joint Mathematics Meetings	January 2011
Calculus Committee, Ursinus College; Member	August 2010-present
Statistics Committee, Ursinus College; Member	August 2010-present
Organizer for Ursinus College ϵ-talks	Fall 2010-Fall 2016
Treasurer for YMN (Young Mathematicians Network)	2010-2015
Judge for MAA Student Paper Session 11, MathFest	August 2010
Reader/Reviwer for "Introduction to Homotopy Theory" by Martin Arkowitz	2007-2008
Student Seminar Organizer	2004-2005
WMU Pi Mu Epsilon Graduate Representative	2003-2005
Grader	Summer 2004, Summer 2003
