

# Nicholas A. Scoville

## Curriculum Vitae

---

101K Pfahler  
Ursinus College  
Collegeville, PA

Phone: 610-409-3118  
E-Mail: [nscoville@ursinus.edu](mailto:nscoville@ursinus.edu)  
URL: <http://webpages.ursinus.edu/nscoville/>

---

### POSITIONS HELD

---

#### Ursinus College

Full Professor	fall 2021- present
Joseph Beardwood III Chair of Mathematics	fall 2017-present
Associate Professor	fall 2016- spring 2021
Chair of Mathematics and Computer Science	spring 2016-present
Assistant Professor	fall 2010-spring 2016

#### Faulkner University

Adjunct Professor	2015
-------------------	------

#### Regina Luminis Academy

Adjunct Instructor	2020-present
--------------------	--------------

### EDUCATION

---

#### Dartmouth College

Ph.D., Mathematics	June 2010
Masters of Arts, Mathematics	June 2007

#### Western Michigan University

Masters of Science, Mathematics	June 2005
Bachelors of Science, Mathematics	August 2003

#### Grand Rapids Community College

Associates, Architectural Drafting	May 2001
------------------------------------	----------

## TEACHING EXPERIENCE

---

### Ursinus College,

*Math 400: Mathematics for Human Flourishing*  
*Math 335: Abstract Algebra*  
*Math 491: Algebraic Topology*  
*Math 451: Discrete Morse Theory*  
*Math 361: Graph Theory*  
*CIE 100: Common Intellectual Experience*  
*Math 421: Topology*  
*Math 211: Multivariable calculus*  
*Math 235: Linear Algebra*  
*Math 10: Problem Solving*  
*Math 322: Geometry*  
*Math 341: Probability*  
*Math 236W: Discrete Mathematics*  
*Stat 141Q: Statistics I*  
*Math 111: Calculus I*  
*Math 112: Calculus II*

### Adjunct Professor, Faulkner University

*Math 1312: Mathematics* Spring 2015

### Other teaching experience,

<i>Teaching Assistant: Dartmouth College</i>	Summer 2009
<i>Instructor: Dartmouth College</i>	2007-2009
<i>Teaching Assistant: Dartmouth College</i>	2005-2007
<i>Instructor: Western Michigan University</i>	2003-2005
<i>Undergraduate Teaching Assistant: Western Michigan University</i>	2002-2003

## INDEPENDENT STUDIES

---

### Ursinus College,

Category theory, Tony Delgado	Spring 2023
Star clusters and homotopy type, Connor Donovan	Fall 2022
Cohomology, Connor Donovan	Fall 2022
Category theory, Tony Delgado	Fall 2022
Discrete Morse theory and knots, Connor Donovan	Spring 2021
Discrete Morse theory, Elvi Sopiqoti	Spring 2020
Discrete plates and Olives, Matthew Furgele	Spring 2020
Analyzing heart data, Ben Minardi	Spring 2019
Algebraic topology, Nick Tulio	Spring 2019
Strong collapsibility and the Morse complex, Max Lin	Spring 2019
Group of strong self-homotopy equivalences, Vince Sergi, Ryan Quick	Spring 2019
Boolean functions, Ryan Quick	Fall 2018
Algebraic topology, Jason Bennett	Fall 2018
Generating Discrete Morse Functions from Point Data, Ashlyn Welch	Spring 2018
Random discrete Morse theory, Nikolai Peralta	Spring 2018
Homotopy theory, Karthik Yegnesh	Fall 2016 Spring 2017, Fall 2017, Spring 2018
Topology, Ian Rand	Spring 2017
Discrete Morse theory and Persistent homology, Yuqing Liu	Spring 2017

Random discrete Morse theory, Nikolai Peralta, Chase Babrich	Fall 2016, Spring 2017
Algebraic topology, Matan Peleg	Fall 2016, Spring 2017
Category theory, Michael Vennettilli	Spring 2015
Multiplication in discrete Morse theory, Rose Blanchard	Spring 2015
Number theoretic notions in discrete Morse theory, Ian Rand	Spring 2015
Discrete Morse theory, Tyler Helms	Fall 2014
Estimating the discrete LS category, Brian Green	Fall 2013
Homology and Cohomology, Seth Aaronson, Brian Green, Michelle Tanco	Spring 2013
Discrete LS category, Seth Aaronson	Spring 2013
Counting discrete Morse functions, Seth Aaronson	Spring 2012
Lie Groups, Brian Green	Spring 2012
Discrete Morse Theory, Mike Agiorgousis	Spring 2012
Markov Chains, Jayant Velagala	Spring 2012
Probability, Jayant Velagala	Fall 2011
Knot Theory, Will Molden	Fall 2011
Discrete Morse Theory, Seth Aaronson	Spring 2011

## STUDENT POSTERS AND PRESENTATIONS

---

Jose Arbelo, Tony Delgado, Charley Kirk, Zach Schlamowitz “ <i>The Dope metric is SIC: A stable, informative, and computable metric on time series</i> , Mathfest, Philadelphia, Pennsylvania	August 2022
Connor Donovan “ <i>Towards the homotopy type of the Morse complex</i> , Exploring Innovation in Appalachia, (virtual), won third place in the math/physics/astronomy category,	August 2021
Connor Donovan “ <i>Towards the homotopy type of the Morse complex</i> , Mathfest, (virtual)	August 2021
Benjamin Johnson “ <i>Merge trees in discrete Morse theory</i> , Mathfest, Cincinnati, Ohio	August 2019
Yuqing Liu “ <i>Persistence equivalence of discrete Morse functions on trees</i> , Mathfest, Denver, Colorado	August 2018
Karthik Yegnesh “ <i>Families of Objects in Categories and Elementary Topoi</i> , AMS/MAA Joint Math Meetings, Atlanta, Georgia	January 2017
Karthik Yegnesh <i>Cosheaf theoretical constructions in networks and persistent homology</i> , 68 <sup>th</sup> annual Delaware Valley Science Fair, Oaks, Pennsylvania (won “first place” in Mathematics)	March 2016
Karthik Yegnesh <i>Cosheaf theoretical constructions in networks and persistent homology</i> , 59 <sup>th</sup> annual Montgomery County Science Research Competition, Collegeville, Pennsylvania (won “first place” in math category)	March 2016
Matt Belle <i>Arboricity</i> , AMS/MAA Joint Math Meetings, Baltimore, Maryland	January 2014
Brian Green <i>Estimating the discrete Lusternik–Schnirelmann category</i> , AMS/MAA Joint Math Meetings, Baltimore, Maryland	January 2014

- Seth Aaronson *Lusternik–Schnirelmann category for cell complexes*,  
AMS/MAA Joint Math Meetings, San Diego, California January 2013
- Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology*,  
AMS/MAA Joint Math Meetings, San Diego, California (won “Outstanding Presentation” award) January 2013
- Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology*,  
Undergraduate Science Research Symposium, Haverford College September 2012
- Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology*,  
Mathfest, Madison, Wisconsin August 2012
- Mike Agiorgousis, Brian Green, Alex Onderdonk, and Kim Rich *Discrete Morse Functions and Homology*,  
*Disappearing Boundaries Summer Research Meeting, Lebanon Valley College* July 2012
- Seth Aaronson and Marie Meyer, “*Graph Isomorphisms in Discrete Morse Theory*”, *AMS/MAA Joint Meetings*,  
*Boston, MA* January 2012

## PUBLICATIONS

## BOOKS

---

*Discrete Morse theory*, AMS/MAA Press, 2019

## BOOK CHAPTERS

---

Nicholas A. Scoville, “Sometimes when your hopes have all been shattered,” *Living Proof: Stories of resilience along the mathematical journey*, Edited by Henrich et al., AMS/MAA Press, 2019

## ARTICLES

---

Nicholas A. Scoville, “Course on Mathematics for Human Flourishing” *MAA FOCUS* February/March 2023

## BOOK REVIEWS

---

Nicholas A. Scoville, “Never a dull moment: Hassler Whitney, Mathematics Pioneer” by Keith Kendig, *The American Mathematical Monthly* Volume 126, 2019 - Issue 9

## PRESENTATIONS

---

<i>Towards a new digital homotopy theory</i>	March, 2023
Discrete homotopy workshop, American Institute of Mathematics, San Jose (invited talk)	
<i>Discrete Morse theory: three approaches</i>	October, 2022
Michael Penn math Patreon Seminar (invited talk)	
<i>Some recent results on the homotopy type of the Morse complex</i>	July, 2022
Applied Topology in Bedlewo, Bedlwo Poland (semi-plenary lecture)	
<i>The homotopy type of the Morse complex for some collections of trees</i>	June, 2022
Union College Mathematics Conference 2022, Union College	
<i>The homotopy type of the Morse complex for some collections of trees</i>	April, 2022
Virtual AMS/MAA Joint Meetings (invited talk)	
<i>Towards a new digital homotopy theory</i>	December, 2021
Virtual University of Regina seminar (invited talk)	
<i>Discrete Morse theory as an introduction to topology</i>	November, 2021
Virtual Rutgers undergraduate seminar (invited talk)	
<i>Higher connectivity of the Morse complex</i>	January, 2021
Virtual AMS/MAA Joint Meetings (invited talk)	
<i>Discrete Morse theory as an introduction to topology</i>	March, 2020
Juniata College math colloquium (invited talk)	
<i>Towards a new digital homotopy theory</i>	February, 2020
University of Albany Geometry/Topology seminar (invited talk)	
<i>Digital topology: A smooth introduction</i>	November, 2019
Westminster College, Fulton Missouri (invited talk)	
<i>Towards a new digital homotopy theory</i>	November, 2019
University of Missouri Geometry/Topology seminar (invited talk)	
<i>Strong discrete Morse theory and an application to simplicial Lusternik–Schnirelmann category</i>	November, 2019
Topological Complexity and Related topics, AMS Southeastern Sectional Meeting, University of Florida (invited talk)	
<i>On the automorphism group of the Morse complex</i>	November, 2019
General Contributed Paper Session, AMS Southeastern Sectional Meeting, University of Florida	
<i>On the automorphism group of the Morse complex</i>	September, 2019

Union College Mathematics Conference 2019, Union College	
<i>A new digital homotopy theory</i>	June, 2019
Lehigh Geometry/Topology Conference	
<i>Towards a new digital homotopy theory</i>	May, 2019
Lehigh University Algebraic Topology seminar (invited talk)	
<i>Build your own topology</i>	January, 2019
General Contributed Paper Session on Research in Topology, Joint Math Meetings, Baltimore	
<i>Digital Topology: A smooth introduction</i>	October, 2018
Western Michigan University (invited talk)	
<i>Strong discrete Morse theory</i>	July, 2018
ICART 2018, Rabat Morocco	
<i>Digital Topology: A smooth introduction</i>	March, 2018
Colloquium, Elon University (invited talk)	
$S^1$ and $S^2$ and $S^3$ , oh fy! <i>A digital Hopf fibration</i>	January, 2018
Math Colloquium, Montana State University (invited talk)	
$S^1$ and $S^2$ and $S^3$ , oh fy! <i>A digital Hopf fibration</i>	November, 2017
Colloquium, Catholic University of America (invited talk)	
<i>Digital Topology: A smooth introduction</i>	November, 2017
Colloquium, Bard College (invited talk)	
$S^1$ and $S^2$ and $S^3$ , oh fy! <i>A digital Hopf fibration</i>	November, 2017
Colloquium, Dartmouth College (invited talk)	
<i>Digital Topology: A smooth introduction</i>	October, 2017
Colloquium, Seattle University (invited talk)	
<i>Digital Topology: A smooth introduction</i>	October, 2017
Colloquium, Central Washington University (invited talk)	
<i>Simplicial Lusternik–Schnirelmann category and strong discrete Morse theory</i>	October, 2017
Topology Seminar, University of Florida (invited talk)	
$S^1$ and $S^2$ and $S^3$ , oh fy! <i>A digital Hopf fibration</i>	October, 2017
Colloquium, University of Florida Colloquium (invited talk)	
<i>Digital Topology: A smooth introduction</i>	September, 2017
Math Club, Cleveland State University (invited talk)	
<i>A Persistent Homological Analysis of Network Data Flow Malfunctions</i>	August, 2017
Applied Algebraic Topology in Sapporo, Sapporo Japan	
<i>A Persistent Homological Analysis of Network Data Flow Malfunctions</i>	June, 2017
Applied Topology in Bedlewo, Bedlwo Poland	
<i>A Simplicial Lusternik–Schnirelmann Theorem (poster)</i>	June, 2017
Topological Data Analysis: Theory and Applications, Macalester College	
<i>Towards a new digital homotopy theory</i>	April 2017
Colloquium, Cleveland State University (invited talk)	

- Collaborative Research: Transforming Instruction in Undergraduate Mathematics via Primary Historical (TRIUMPHS)* January, 2017  
 MAA Invited Paper Session on Research in Improving Undergraduate Mathematical Sciences Education Program, AMS/MAA Joint Meetings, Atlanta (invited talk)
- (Strong) discrete Morse theory as an introduction to topology* September, 2016  
 Colloquium, Butler University (invited talk)
- Georg Cantor at the dawn of point-set topology* September, 2016  
 Butler University (invited talk)
- A Simplicial Lusternik–Schnirelmann Theorem (poster)* July, 2016  
 ATMCS 7, Torino Italy
- The Cantor Set before Cantor* January, 2016  
 AMS/MAA Joint Meetings, Seattle Washington
- Discrete Morse theory as an introduction to Topology* December 2015  
 Colloquium, University of Sevilla (invited talk)
- Graph isomorphisms in discrete Morse theory* October, 2015  
 Colloquium, Lehigh University (invited talk)
- Estimating the discrete Lusternik–Schnirelmann category* February, 2015  
 Homology: Theoretical and Computational Aspects, Genoa, Italy
- Discrete Morse theory at the service of Number Theory* January, 2015  
 MAA General Contributed Paper Session on Research in Topology, AMS/MAA Joint Meetings, San Antonio
- Graph isomorphisms in discrete Morse theory* October, 2014  
 Colloquium, Seattle University (invited talk)
- Lusternik–Schnirelmann category, categorical sequences, and rational numbers* September, 2014  
 Topology seminar, University of Michigan (invited talk)
- Topology and its history- must there be a separation?* May, 2014  
 Pohle Colloquium, Adelphi University (invited talk)
- Lusternik–Schnirelmann category, categorical sequences, and rational numbers* February, 2014  
 Geometry/Topology seminar, University of Pennsylvania (invited talk)
- Topology and its history- must there be a separation?* January, 2014  
 PASHoM Seminar, Villanova University (invited talk)
- Graph isomorphisms via discrete Morse theory* January, 2014  
 AMS Special Session on Trends in Graph Theory, AMS/MAA Joint Meetings, Baltimore
- Topology and its history are connected under the classroom topology* October, 2013  
 Special Session on History of Mathematics and Its Use in Teaching, AMS Southeastern Sectional meeting, University of Louisville (invited talk)
- Computing the Discrete Lusternik–Schnirelmann category of a simplicial complex* July, 2013  
 Applied Topology in Bedlewo, Bedlewo, Poland
- Discrete Lusternik–Schnirelmann category* October, 2012  
 General Contributed Paper Session, AMS Southeastern Sectional Meeting, Tulane University

<i>Discrete Morse theory and the homology of simplicial complexes</i> General Contributed Paper Session, Mathfest, Madison	August, 2012
<i>Fun with Pi</i> Pi Day Celebration, Ursinus College	March, 2012
<i>Lusternik–Schnirelmann Category and the Connectivity of <math>X</math></i> Research in Algebra and Topology, AMS/MAA Joint Meetings, Boston	January, 2012
<i>Graph Isomorphisms in Discrete Morse Theory</i> Colloquium, Saint Joseph’s University (invited talk)	November, 2011
<i>Graph Isomorphisms in Discrete Morse Theory</i> Colloquium, Swarthmore College(invited talk)	October, 2011
<i>Graph Isomorphisms in Discrete Morse Theory</i> Colloquium, Gettysburg College (invited talk)	September, 2011
<i>Discrete Morse Functions on Graphs</i> Pure Mathematics Session, Mathfest, Lexington	August, 2011
<i>The Advent of Point-Set Topology</i> General Topology Session, AMS/MAA Joint Meetings, New Orleans	January, 2011
<i>Pick’s Theorem: How to compute the area of a polygon</i> $\epsilon$ -talk Seminar, Ursinus College	October, 2010
<i>Rethinking the way we teach Point-Set Topology</i> The History of Mathematics and Its Uses in the Classroom, Mathfest, Pittsburgh	August 2010
<i>Irrational Numbers</i> Colloquium, St. Mary’s University (invited talk)	February 2010
<i>2 Equations Attributed to Euler</i> Colloquium, Mount Saint Mary’s College (invited talk)	February 2010
<i>What makes Topological Spaces different?</i> Colloquium, Ursinus College (invited talk)	January 2010
<i>A Metric for Homotopy Types</i> Geometry/Topology Session III, AMS/MAA Joint Meetings, San Francisco	January 2010
<i>Generalized Cone and Killing Lengths</i> Graduate Student Seminar, Dartmouth College	November 2008
<i>Hopf Invariants and the Reduced Diagonal</i> Topology Seminar, Western Michigan University	April 2004
<i>Something About the Quartic</i> History of Math Seminar, Western Michigan University	February 2004
<i>Diophantine Equations</i> Student Seminar, Western Michigan University	February 2004
<i>Beginning Invariant Theory and the Fundamental Theorem of Symmetric Polynomials</i> Algebra Seminar, Western Michigan University	January 2004
<i>Two Special Cases of Ganea’s Conjecture</i>	December 2003

Topology Seminar, Western Michigan University	
<i>Applications of Groebner Bases and Elimination Theory</i>	November 2003
Algebra Seminar, Western Michigan University	
<i>Category-Type Invariants of Maps</i>	November 2003
Topology Seminar, Western Michigan University	
<i>Hardy, Littlewood, and Ramanujan-the REAL Triple Threat!</i>	September 2003
History of Math Seminar, Western Michigan University	

## WORKSHOPS RUN

---

<i>Discrete Morse theory: Breadth and depth</i>	July, 2022
Adam Mickiewicz University, Poznan Poland (invited workshop)	
<i>MAA Workshop: Teaching Undergraduate Mathematics via Primary Source Projects.</i>	January, 2020
AMS/MAA Joint Math Meetings, Denver Colorado	
<i>TRIUMPHS Graduate student training Workshop</i>	July 19-20, 2019
New Mexico State University	
<i>TRIUMPHS Training Workshop</i>	September 13-15, 2018
University of Colorado Denver	
<i>Teaching Undergraduate Mathematics via Primary Source Projects</i>	January 2018
AMS/MAA Joint Math Meetings, San Diego CA	
<i>Teaching Mathematics with Primary Historical Sources</i>	April 1, 2017
MAA EPADEL sectional meeting, Kutztown PA	
<i>TRIUMPHS Training Workshop</i>	September 8-10, 2016
University of Colorado Denver	
<i>Connecting Past to Present: An approach to teaching topology via original resources</i>	July, 2016
HPM 2016, Montpellier France	

## PROFESSIONAL AFFILIATIONS

---

<i>Council on Undergraduate Research</i>	2013-2017
<i>History of Mathematics Special Interest Group of the Mathematical Association of America (HOMSIGMAA)</i>	2012-Present
<i>Association of Christians in the Mathematical Sciences</i>	2011-Present
<i>Mathematical Association of America</i>	2009-Present
<i>American Mathematical Society</i>	2005-Present

*Pi Mu Epsilon Mathematics Honors Society*

Fall 2002-Spring 2005

**HONORS AND AWARDS**

---

Paul R. Halmos-Lester R. Ford Award  
for article of expository excellence published in The American Mathematical Monthly August 2020

**REU SITE: Exploration and Professional  
Excellence in the Mathematical Sciences**  
NSF Grant 1851948 (April 2020- March 2023)

\$225,469

Western Michigan University  
Department of Mathematics Alumni Achievement Award October 2018

**Collaborative Research: RUI: Transforming Instruction  
in Undergraduate Mathematics via Primary History Sources**  
NSF IUSE Grant 1524065 (Aug. 2015- Sept. 2020) PIs at Colorado State,  
Central Washington, NMSU, Xavier, U Colorado, Denver, U Florida

\$71,002

Best oral presentation at HTCA conference in Genoa, Italy  
sponsored by Gruppo Italiano Ricercatori in Pattern Recognition. February 2015

Mellon travel grant July 2013

Mellon travel grant May 2012

Project NExT Fellow Aug. 2010 – Aug. 2011

**ADDITIONAL SKILLS**

---

Mathematical Software: LATEX, MATLAB, Maple, BlackBoard, WeBWork, HTML, Minitab, Derive, Java.

**MATHEMATICAL ACTIVITIES**

---

Served on PhD thesis committee for David Mosquera Lois  
“Morse Theory on Finite Spaces”  
University of Santiago de Compostela, February 2022

Served on MA math thesis committee for Marwa Mosallam  
“On cup-products of cofibers of maps between Moore spaces,

Hopf invariant, and Lusternik–Schnirelmann category” Western Michigan University,	July 2021
Served on virtual panel “Teaching and the Liberal Arts” University of Tennessee, Knoxville	April 2020
Referee for several journals (available upon request)	2013-present
Member of NSF’s College of Reviewers for Undergraduate Education	2018-2021
Scientific Committee, ESU8, Oslo Norway	July 2018
Scientific Committee, ICART 2018, Rabat Morocco	July 2018
Organized Special Session “AMS Special Session on Open & Accessible Problems for Undergraduate Research, ” with Allison Henrich and Michael Dorff at AMS/MAA Joint Math Meetings	January 2018
Focus Magazine, editorial board	November 2017-2022
Served on NSF panel review	2016, 2017, 2018
Served on MAA Basic Library List Committee	January 2017-January 2020
Organized Special Session “AMS Special Session on Open & Accessible Problems for Undergraduate Research, ” with Allison Henrich and Michael Dorff at AMS/MAA Joint Math Meetings	January 2017
Served on panel “The Research and Teaching Pendulum: January 2017 Finding a Stable Equilibrium” at AMS/MAA Joint Math Meetings	January 2017
Organized Special Session “Applied and Computational Topology, ” with Matthew Wright and Paweł Dłotko at AMS/MAA Joint Math Meetings	January 2016
Organized panel “Finding a thesis topic and advisor, ” at AMS/MAA Joint Math Meetings	January 2016
Reviewed applications for Posters on the Hill	Fall 2015
Reviewer for MathSciNet Mathematical Reviews	February 2015-present

Organized panel “Graduate school: Choosing one, getting in, staying in, ” at AMS/MAA Joint Math Meetings	January 2015
Reviewed applications for Posters on the Hill	Fall 2014
Book reviewer for online MAA book reviews	2014-Present
Faculty representative for Ursinus MAA student chapter	2014-Present
CUR Councilor in the Mathematics and Computer Sciences Division	2014-Present
