

# Nicholas A. Scoville

## Curriculum Vitae

---

101K Pfahler  
Ursinus College  
Collegeville, PA

Phone: 610-409-3118  
E-Mail: [nscoville@ursinus.edu](mailto:nscoville@ursinus.edu)  
URL: <http://webpages.ursinus.edu/nscoville/>

---

### POSITIONS HELD

---

#### Ursinus College

Full Professor	fall 2021- present
Joseph Beardwood III Chair of Mathematics	fall 2017-present
Associate Professor	fall 2016- spring 2021
Chair of Mathematics and Computer Science	spring 2016-present
Assistant Professor	fall 2010-spring 2016

#### Faulkner University

Adjunct Professor	2015
-------------------	------

#### Regina Luminis Academy

Adjunct Instructor	2020-present
--------------------	--------------

### EDUCATION

---

#### Dartmouth College

Ph.D., Mathematics	June 2010
Masters of Arts, Mathematics	June 2007

#### Western Michigan University

Masters of Science, Mathematics	June 2005
Bachelors of Science, Mathematics	August 2003

#### Grand Rapids Community College

Associates, Architectural Drafting	May 2001
------------------------------------	----------

## TEACHING EXPERIENCE

---

### Ursinus College,

*Math 335: Abstract Algebra*  
*Math 491: Algebraic Topology*  
*Math 451: Discrete Morse Theory*  
*Math 361: Graph Theory*  
*CIE 100: Common Intellectual Experience*  
*Math 421: Topology*  
*Math 211: Multivariable calculus*  
*Math 235: Linear Algebra*  
*Math 10: Problem Solving*  
*Math 322: Geometry*  
*Math 341: Probability*  
*Math 236W: Discrete Mathematics*  
*Stat 141Q: Statistics I*  
*Math 111: Calculus I*  
*Math 112: Calculus II*

### Adjunct Professor, Faulkner University

*Math 1312: Mathematics* Spring 2015

### Other teaching experience,

<i>Teaching Assistant: Dartmouth College</i>	Summer 2009
<i>Instructor: Dartmouth College</i>	2007-2009
<i>Teaching Assistant: Dartmouth College</i>	2005-2007
<i>Instructor: Western Michigan University</i>	2003-2005
<i>Undergraduate Teaching Assistant: Western Michigan University</i>	2002-2003

## INDEPENDENT STUDIES

---

### Ursinus College,

Discrete Morse theory and knots, Connor Donovan	Spring 2021
Discrete Morse theory, Elvi Sopiqoti	Spring 2020
Discrete plates and Olives, Matthew Furgele	Spring 2020
Analyzing heart data, Ben Minardi	Spring 2019
Algebraic topology, Nick Tulio	Spring 2019
Strong collapsibility and the Morse complex, Max Lin	Spring 2019
Group of strong self-homotopy equivalences, Vince Sergi, Ryan Quick	Spring 2019
Boolean functions, Ryan Quick	Fall 2018
Algebraic topology, Jason Bennett	Fall 2018
Generating Discrete Morse Functions from Point Data, Ashlyn Welch	Spring 2018
Random discrete Morse theory, Nikolai Peralta	Spring 2018
Homotopy theory, Karthik Yegnesh	Fall 2016 Spring 2017, Fall 2017, Spring 2018
Topology, Ian Rand	Spring 2017
Discrete Morse theory and Persistent homology, Yuqing Liu	Spring 2017
Random discrete Morse theory, Nikolai Peralta, Chase Babrich	Fall 2016, Spring 2017
Algebraic topology, Matan Peleg	Fall 2016, Spring 2017
Category theory, Michael Vennettilli	Spring 2015
Multiplication in discrete Morse theory, Rose Blanchard	Spring 2015
Number theoretic notions in discrete Morse theory, Ian Rand	Spring 2015

Discrete Morse theory, Tyler Helms	Fall 2014
Estimating the discrete LS category, Brian Green	Fall 2013
Homology and Cohomology, Seth Aaronson, Brian Green, Michelle Tanco	Spring 2013
Discrete LS category, Seth Aaronson	Spring 2013
Counting discrete Morse functions, Seth Aaronson	Spring 2012
Lie Groups, Brian Green	Spring 2012
Discrete Morse Theory, Mike Agiorgousis	Spring 2012
Markov Chains, Jayant Velagala	Spring 2012
Probability, Jayant Velagala	Fall 2011
Knot Theory, Will Molden	Fall 2011
Discrete Morse Theory, Seth Aaronson	Spring 2011

## STUDENT POSTERS AND PRESENTATIONS

---

Connor Donovan “Towards the homotopy type of the Morse complex,  
Exploring Innovation in Appalachia, (virtual), won third place in the math/physics/astronomy category, August 2021

Connor Donovan “Towards the homotopy type of the Morse complex,  
Mathfest, (virtual) August 2021

Benjamin Johnson “Merge trees in discrete Morse theory,  
Mathfest, Cincinnati, Ohio August 2019

Yuqing Liu “Persistence equivalence of discrete Morse functions on trees,  
Mathfest, Denver, Colorado August 2018

Karthik Yegnesh “Families of Objects in Categories and Elementary Topoi,  
AMS/MAA Joint Math Meetings, Atlanta, Georgia January 2017

Karthik Yegnesh *Cosheaf theoretical constructions in networks and persistent homology*,  
68<sup>th</sup> annual Delaware Valley Science Fair, Oaks, Pennsylvania (won “first place” in Mathematics) March 2016

Karthik Yegnesh *Cosheaf theoretical constructions in networks and persistent homology*,  
59<sup>th</sup> annual Montgomery County Science Research Competition, Collegeville, Pennsylvania  
(won “first place” in math category) March 2016

Matt Belle *Arboricity*,  
AMS/MAA Joint Math Meetings, Baltimore, Maryland January 2014

Brian Green *Estimating the discrete Lusternik–Schnirelmann category*,  
AMS/MAA Joint Math Meetings, Baltimore, Maryland January 2014

Seth Aaronson *Lusternik–Schnirelmann category for cell complexes*,  
AMS/MAA Joint Math Meetings, San Diego, California January 2013

Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology*,  
AMS/MAA Joint Math Meetings, San Diego, California (won “Outstanding Presentation” award) January 2013

Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology*,  
Undergraduate Science Research Symposium, Haverford College September 2012

Mike Agiorgousis, Brian Green, and Alex Onderdonk *Discrete Morse Functions and Homology*,  
Mathfest, Madison, Wisconsin

August 2012

Mike Agiorgousis, Brian Green, Alex Onderdonk, and Kim Rich *Discrete Morse Functions and Homology*,  
*Disappearing Boundaries Summer Research Meeting, Lebanon Valley College*

July 2012

Seth Aaronson and Marie Meyer, “*Graph Isomorphisms in Discrete Morse Theory*”, *AMS/MAA Joint Meetings*,  
Boston, MA

January 2012

## PUBLICATIONS

---

Benjamin Johnson and Nicholas A. Scoville, “Merge trees in discrete Morse theory,” *submitted*

Nicholas A. Scoville and Matthew C. B. Zaremsky, “Higher connectivity of the Morse complex,” *submitted*

Desamparados Fernandez-Ternero, Enrique Macias-Virgos, David Mosquera-Lois, Nicholas A. Scoville, and Jose-Antonio Vilches, “Fundamental Theorems of Morse theory on posets,” *submitted*

## BOOKS

---

*Discrete Morse theory*, AMS/MAA Press, 2019

## BOOK CHAPTERS

---

Nicholas A. Scoville, “Sometimes when your hopes have all been shattered,” *Living Proof: Stories of resilience along the mathematical journey*, Edited by Henrich et al., AMS/MAA Press, 2019

## BOOK REVIEWS

---

Nicholas A. Scoville, “Never a dull moment: Hassler Whitney, Mathematics Pioneer” by Keith Kendig, *The American Mathematical Monthly* Volume 126, 2019 - Issue 9

## PRESENTATIONS (past 4 years only)

---

<i>Higher connectivity of the Morse complex</i>	January, 2021
Virtual AMS/MAA Joint Meetings (invited talk)	
<i>Discrete Morse theory as an introduction to topology</i>	March, 2020
Juniata College math colloquium (invited talk)	
<i>Towards a new digital homotopy theory</i>	February, 2020
University of Albany Geometry/Topology seminar (invited talk)	
<i>Digital topology: A smooth introduction</i>	November, 2019
Westminster College, Fulton Missouri (invited talk)	
<i>Towards a new digital homotopy theory</i>	November, 2019
University of Missouri Geometry/Topology seminar (invited talk)	
<i>Strong discrete Morse theory and an application to simplicial Lusternik–Schnirelmann category</i>	November, 2019
Topological Complexity and Related topics, AMS Southeastern Sectional Meeting, University of Florida (invited talk)	

<i>On the automorphism group of the Morse complex</i>	November, 2019
General Contributed Paper Session, AMS Southeastern Sectional Meeting, University of Florida	
<i>A new digital homotopy theory</i>	June, 2019
Lehigh Geometry/Topology Conference	
<i>Towards a new digital homotopy theory</i>	May, 2019
Lehigh University Algebraic Topology seminar (invited talk)	
<i>Build your own topology</i>	January, 2019
General Contributed Paper Session on Research in Topology, Joint Math Meetings, Baltimore	
<i>Digital Topology: A smooth introduction</i>	October, 2018
Western Michigan University (invited talk)	
<i>Strong discrete Morse theory</i>	July, 2018
ICART 2018, Rabat Morocco	
<i>Digital Topology: A smooth introduction</i>	March, 2018
Colloquium, Elon University (invited talk)	
$S^1$ and $S^2$ and $S^3$ , oh fy! <i>A digital Hopf fibration</i>	January, 2018
Math Colloquium, Montana State University (invited talk)	
$S^1$ and $S^2$ and $S^3$ , oh fy! <i>A digital Hopf fibration</i>	November, 2017
Colloquium, Catholic University of America (invited talk)	
<i>Digital Topology: A smooth introduction</i>	November, 2017
Colloquium, Bard College (invited talk)	
$S^1$ and $S^2$ and $S^3$ , oh fy! <i>A digital Hopf fibration</i>	November, 2017
Colloquium, Dartmouth College (invited talk)	
<i>Digital Topology: A smooth introduction</i>	October, 2017
Colloquium, Seattle University (invited talk)	
<i>Digital Topology: A smooth introduction</i>	October, 2017
Colloquium, Central Washington University (invited talk)	
<i>Simplicial Lusternik–Schnirelmann category and strong discrete Morse theory</i>	October, 2017
Topology Seminar, University of Florida (invited talk)	
$S^1$ and $S^2$ and $S^3$ , oh fy! <i>A digital Hopf fibration</i>	October, 2017
Colloquium, University of Florida Colloquium (invited talk)	
<i>Digital Topology: A smooth introduction</i>	September, 2017
Math Club, Cleveland State University (invited talk)	
<i>A Persistent Homological Analysis of Network Data Flow Malfunctions</i>	August, 2017
Applied Algebraic Topology in Sapporo, Sapporo Japan	
<i>A Persistent Homological Analysis of Network Data Flow Malfunctions</i>	June, 2017
Applied Topology in Bedlewo, Bedlwo Poland	
<i>A Simplicial Lusternik–Schnirelmann Theorem (poster)</i>	June, 2017
Topological Data Analysis: Theory and Applications, Macalester College	
<i>Towards a new digital homotopy theory</i>	April 2017

Colloquium, Cleveland State University (invited talk)

*Collaborative Research: Transforming Instruction in Undergraduate Mathematics via Primary Historical (TRIUMPHS)* January, 2017

MAA Invited Paper Session on Research in Improving  
Undergraduate Mathematical Sciences Education  
Program, AMS/MAA Joint Meetings, Atlanta (invited talk)

## WORKSHOPS RUN

---

*MAA Workshop: Teaching Undergraduate Mathematics via Primary Source Projects.* January, 2020  
AMS/MAA Joint Math Meetings, Denver Colorado

*TRIUMPHS Graduate student training Workshop* July 19-20, 2019  
New Mexico State University

*TRIUMPHS Training Workshop* September 13-15, 2018  
University of Colorado Denver

*Teaching Undergraduate Mathematics via Primary Source Projects* January 2018  
AMS/MAA Joint Math Meetings, San Diego CA

*Teaching Mathematics with Primary Historical Sources* April 1, 2017  
MAA EPADEL sectional meeting, Kutztown PA

*TRIUMPHS Training Workshop* September 8-10, 2016  
University of Colorado Denver

*Connecting Past to Present: An approach to teaching topology via original resources* July, 2016  
HPM 2016, Montpellier France

## PROFESSIONAL AFFILIATIONS

---

*Council on Undergraduate Research* 2013-2017

*History of Mathematics Special Interest Group  
of the Mathematical Association of America (HOMSIGMAA)* 2012-Present

*Association of Christians in the Mathematical Sciences* 2011-Present

*Mathematical Association of America* 2009-Present

*American Mathematical Society* 2005-Present

*Pi Mu Epsilon Mathematics Honors Society* Fall 2002-Spring 2005

## HONORS AND AWARDS

---

Paul R. Halmos-Lester R. Ford Award  
for article of expository excellence published in The American Mathematical Monthly August 2020

**REU SITE: Exploration and Professional  
Excellence in the Mathematical Sciences**  
NSF Grant 1851948 (April 2020- March 2023) \$225,469

Western Michigan University  
Department of Mathematics Alumni Achievement Award October 2018

**Collaborative Research: RUI: Transforming Instruction  
in Undergraduate Mathematics via Primary History Sources**  
NSF IUSE Grant 1524065 (Aug. 2015- Sept. 2020) PIs at Colorado State,  
Central Washington, NMSU, Xavier, U Colorado, Denver, U Florida \$71,002

Best oral presentation at HTCA conference in Genoa, Italy  
sponsored by Gruppo Italiano Ricercatori in Pattern Recognition. February 2015

Mellon travel grant July 2013

Mellon travel grant May 2012

Project NExT Fellow Aug. 2010 – Aug. 2011

## ADDITIONAL SKILLS

---

Mathematical Software: LATEX, MATLAB, Maple, BlackBoard, WeBWork, HTML, Minitab, Derive, Java.

## MATHEMATICAL ACTIVITIES

---

Served on MA math thesis committee for Marwa Mosallam  
“On cup-products of cofibers of maps between Moore spaces,  
Hopf invariant, and Lusternik–Schnirelmann category”  
Western Michigan University, July 2021

Served on virtual panel “Teaching and the Liberal Arts”  
University of Tennessee, Knoxville April 2020

Referee for several journals (available upon request) 2013-present

Member of NSF's College of Reviewers for Undergraduate Education 2018-2021

Scientific Committee, ESU8, Oslo Norway	July 2018
Scientific Committee, ICART 2018, Rabat Morocco	July 2018
Organized Special Session “AMS Special Session on Open & Accessible Problems for Undergraduate Research, ” with Allison Henrich and Michael Dorff at AMS/MAA Joint Math Meetings	January 2018
Focus Magazine, editorial board	November 2017-present
Served on NSF panel review	2016, 2017, 2018
Served on MAA Basic Library List Committee	January 2017-January 2020
Organized Special Session “AMS Special Session on Open & Accessible Problems for Undergraduate Research, ” with Allison Henrich and Michael Dorff at AMS/MAA Joint Math Meetings	January 2017
Served on panel “The Research and Teaching Pendulum: January 2017 Finding a Stable Equilibrium” at AMS/MAA Joint Math Meetings	January 2017
Organized Special Session “Applied and Computational Topology, ” with Matthew Wright and Paweł Dłotko at AMS/MAA Joint Math Meetings	January 2016
Organized panel “Finding a thesis topic and advisor, ” at AMS/MAA Joint Math Meetings	January 2016
Reviewed applications for Posters on the Hill	Fall 2015
Reviewer for MathSciNet Mathematical Reviews	February 2015-present
Organized panel “Graduate school: Choosing one, getting in, staying in, ” at AMS/MAA Joint Math Meetings	January 2015
Reviewed applications for Posters on the Hill	Fall 2014
Book reviewer for online MAA book reviews	2014-Present
Faculty representative for Ursinus MAA student chapter	2014-Present

CUR Councilor in the Mathematics and Computer Sciences Division	2014-Present
Served on panel “You published your dissertation: now what?” at AMS/MAA Joint Math Meetings	January 2013
Organized panel “The on-campus interview survival guide” at AMS/MAA Joint Math Meetings	January 2013
Reviewer for mathematical publication database Zentralblatt	August 2012-present
Senior Personal, Ursinus College REU (NSF Grant No. DMS-1003972)	June 2012-August 2012
Organized Panel “Hit the Ground Running! Interview like a Pro and land the job” at AMS/MAA Joint Math Meetings	January 2012
Senior Personal, Ursinus College REU (NSF Grant No. DMS-1003972)	June 2011-August 2011
Judge for MAA Student Paper Session 3, MathFest	August 2011
Judge of research abstracts for Young Mathematicians Network Conference applicants	July 2011
Judge for MAA Student Poster Session, Joint Mathematics Meetings	January 2011
Calculus Committee, Ursinus College; Member	August 2010-present
Statistics Committee, Ursinus College; Member	August 2010-present
Organizer for Ursinus College $\epsilon$ -talks	Fall 2010-Fall 2016
Treasurer for YMN (Young Mathematicians Network)	2010-2015
Judge for MAA Student Paper Session 11, MathFest	August 2010
Reader/Reviwer for “Introduction to Homotopy Theory” by Martin Arkowitz	2007-2008
Student Seminar Organizer	2004-2005
WMU Pi Mu Epsilon Graduate Representative	2003-2005
Grader	Summer 2004, Summer 2003

## ADDITIONAL ACTIVITIES

---

- Tutor for Critical Point Test Prep** Fall 2020-present  
Berwyn, PA
- Director of Religious Education** Fall 2019-present  
Sacred Heart Parish, Royersford PA.
- Second Grade PREP Teacher** Fall 2016-Spring 2019  
Taught hour-long once weekly religious formation/catechism class to second grade students at Sacred Heart Parish, Royersford PA.
- First Grade PREP Teacher** Fall 2015-Spring 2016  
Taught hour-long once weekly religious formation/catechism class to first grade students at Sacred Heart Parish, Royersford PA.
- Fourth Grade PREP Teacher** Fall 2014-Spring 2015  
Taught hour-long once weekly religious formation/catechism class to fourth grade students at Sacred Heart Parish, Royersford PA.
- Ursinus College Newman Society Faculty Advisor** Fall 2011-present
- Sixth Grade PREP Teacher** Fall 2011-Spring 2014  
Taught hour-long once weekly religious formation/catechism class to sixth grade students at Sacred Heart Parish, Royersford PA.
- Beat *Silver Surfer*** September 2011  
Finished NES game *Silver Surfer* (Arcadia Systems, 1990), considered by many to be the most difficult game in NES history.
- Sixth Grade Religious Education Teacher** Fall 2010-Spring 2011  
Taught hour-long once weekly religious formation/catechism class to sixth grade students at St. Norbert Parish, Paoli PA.
- Seventh Grade Religious Education Teacher** Fall 2009-Spring 2010  
Taught hour-long once weekly religious formation/catechism class to seventh grade students at St. Denis Parish, Hanover NH.
- Contra Speedrun** Fall 2008  
Defeated NES video game Contra in 11 minutes and 4 seconds without cheats or turbos, Hanover NH
- Youth Group Leader at St. Denis Parish** Fall 2008-Spring 2009  
Gave lectures, organized activities, participated in service projects
